## **It's Almost That Time Again..... Winterizing Your Boat**

1. Enclosed you will find a winter work order form (if you have an outboard); please fill the form out completely and return it to the office.. You can mail, email ([cedarcreekmarina@prodigy.net](mailto:cedarcreekmarina@prodigy.net)) or fax the form back to us (fax # (302) 422-5475) If you have any question feel free to call the service department. The boats are winterized in the order the service department receives the forms and The Marina is not responsible for any damage because of freezing.

### **Some other winter recommendations:**

- \*Remove all soda cans/bottles, just imagine the mess when they freeze and break.
- \*A strong recommendation would be to cover your boat with a poly tarp to cut down on dust or in case the boat above you has a problem over the winter.
- \*If you are trailering your boat, remember to grease your wheel bearings, check lights, winch cables, tire pressure and lug nuts.
  - \* Make sure your trailer registration is current.
  - \* **Leave keys and batteries** in the boat until the marina is finished winterizing the boat.
  - \* Leave as little gas in the boat for the winter as possible
